Re: Boilermakers Local Lodge No. 5 Endorsement

Dear Sir:

The Boilermakers of Local Lodge No. 5 are proud to endorse Kevin Byrne for the 94th District of the New York State Assembly. He has proven his friendship to labor with his support of the Public Works Bill this year, that would guarantee a just wage and benefits to the hard working middle class, and a Worker Protection Bill that would keep the skilled workforce gainfully employed at Indian Point through its decommissioning.

Today, more than ever, we need a man of character to represent our families and protect our livelihoods. Boilermakers desire an assembly member on the labor committee that they can count on to provide energy jobs for New Yorkers. They need someone who believes New Yorkers should generate their own electrical power, and not import it from another state or country. Assemblyman Byrne understands how important it is to keep electrical power generation in the Lower Hudson Valley for our community's economic security and vitality.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Thomas F. Ryan
