"**ConservAmerica** is pleased to endorse Kevin Byrne for New York's 94th State Assembly seat. Kevin will be a champion for conservation and environmental protection in Albany. New York's natural resources provide jobs and recreation across the state and make possible the world famous clean drinking water enjoyed by the millions of residents of New York City. Kevin will be a good and wise steward of those resources."

ConservAmerica is the nation's oldest conservation group dedicated to upholding Theodore Roosevelt's conservation legacy among conservatives.
